

CAMPUS REMINDERS

AFTER HOURS HVAC

For any employees working after hours, please contact the Management Office at least 24 hours in advance to schedule for overtime HVAC for offices.

JANITORIAL

Please keep an eye out for the janitorial calendar so you know when vacuuming and deskside trash service will be completed in your suite. The schedule can be found [here](#) on the campus website. If you need additional cleaning, trash pickup, or vacuuming, please contact the Management Office.

HEALTH & SAFETY REMINDERS

DAYLIGHT SAVINGS ENDS SUNDAY, NOVEMBER 4th

Remember to set your clocks back one hour beginning at 2:00am on Sunday, November 4th. This is a great time to replace all batteries in carbon monoxide and smoke detectors throughout your home.

SWEATER WEATHER & PUMPKIN SPICE SEASON IS UPON US

Fall is a wonderful time of year – leaves changing, footballs back, apples are ready to be picked, pumpkins are ready to be carved, and boots are ready to be worn. However, please be careful as fall fun does come with its share of hazards. . . a major one being hurricanes. Hurricane season officially began on June 1st and will end on November 30th. During this time, floodwaters, tornados, leaves, and wildlife present a major hazard for both pedestrians and drivers alike. Please take the time to review [FEMA](#), [the National Weather Service](#) and [the Red Cross](#)' Hurricane Season Safety Tips.

SUSTAINABILITY *...From the Johns Hopkins Office of Sustainability:*

'To kick off Campus Sustainability, Homewood Recycling is teaming up with the JHU Office of Sustainability and Trash Free Maryland in a community cleanup event to address litter in Baltimore. On Monday, October 1, we will be hosting the first Charles Village Clean Up Crew event for JHU faculty, staff and students to pick up litter in Charles Village the neighborhood adjacent to the Homewood Campus. So grab your friends and colleagues as we walk around our neighborhood, make it cleaner, get to know new people and then celebrate our hard work with some delicious food. Our partner, *Trash Free Maryland* is the leading advocate for public policies and initiatives to reduce trash pollution and litter in the state. Through their "**Less Litter, B'More**" campaign, they're looking to mobilize community members to keep their communities clean through consistent litter collection: whether it's on your way to and from home or work, or you plan weekly litter walks with coworkers, neighbors, family or friends, we can each directly contribute to a cleaner city, and in turn, prevent pollution of our waterways. Data collected as part of this event will also support efforts to prevent litter through policy and initiatives with local and state governments, businesses and industry. We hope this event will inspire the JHU community to mobilize regular clean ups among their friends and colleagues. All tools and materials will be provided by Trash Free Maryland, the Baltimore Community ToolBank, and Homewood Recycling. Lunch will be provided to all volunteers. The event is free but [please register.](#)'
